MEDIA WORKSHOP

The Media Workshop / kulturwerk bbk Berlin invites you to an exhibition dedicated to the material aspects of media art. The invisibility of the physical opens up a discourse on the body, as the boundaries of immateriality are transcended from the other side. Digital artworks are structured as a luminous raster. Mountains, water and dust are all the same. When you approach them and look at them, you see luminous grids, rectangles, dynamic squares*.

OPENING // 16.05.24 // 5pm
